Good Morning

I have been meaning to touch base with you for the last couple of weeks but it has just been crazy for some reason. I have an idea that was actually spirited by a call from John Dr. Spry's business manager.

Each year small offices [including LCMS] face increasing health care costs as well as other benefits such as disability etc. I contacted Jill Jensen with Cline Williams and she said there is such a thing as a Multi-organizational Employment Group [MEG] statute that we may want to explore.

Briefly what it would mean is that offices such as yours would hire employees from this MEG thus increasing our insurance pool to get better rates.

The contracts could be ala-carte in some ways-but all employees would need to get their checks and benefits from the MEG.

The contracting offices--such as yours--would still hire, fire, determine raises and handle all personnel issues the services that could be provided would include:

7/11/2011

- background checks
- placing ads
- conducting first round of interviews or critiquing resumes
- and of course all payroll and benefit paperwork

This would be a separate LLC but I would see it housed at LCMS[so we would get income from rent-phones-etc-and yet much cheaper than any where else] We would have a separate board-I would see it being more of the office managers than physician members.

We would have to hire a manager for this project as I really don't think I can handle this big of a project but would be willing to explore the possibility.

Jill Jensen has offered to have a lunch meeting with a couple of experts in this area to discuss options.

Of course the possibilities are endless --we could expand to dental offices and even to small offices around the SE area that are not owned by hospitals

It could either be a separate corporation that is a for profit arm of LCMS or it could simply be a separate corp endorsed by LCMS

So tell me if I am crazy and if you would want to explore the option here is what I think we would need to do:

1. meet with Jill and her colleagues--
2. meet with interested offices--as if we were not doing this as a for profit arm of LCMS we would need a financial investment by those offices
3. Determine time line, business plan etc.

Let me know what you think--

PS Les --I mentioned it to Denise and all she said was we could not hire John!!
